

## Spin Slow

BALLAD

Spin slow, ever so slow, and in reverse, compared to all the  
slow, ever so slow, on an a - xis turned on its head: what

o - ther planets; what can explain it all, that odd mo-  
strange obli - qui - ty! No one, so far, knows why, since long a -  
what you get when gaz hea - vy and

tion, retrograd - a - tion, and most of all, so slow. Spin  
go, you're up - side down, and ro - ta - ting slow, so slow.  
thick, ab - sorb the heat; a greenhouse ef - fact gone mad.

Your a - tmo - sphere goes much fa - ster; Winds u - pon winds blown all o -  
Your a - tmo - sphere is so a - cid: car - bon and su - lphur di - o -

ver; so hot, extremely hot, e - ven at night, e - verywhere on your  
side. But soon, e - ver so soon, we'll cross o - ver, and un - co - ver your

globe's sur - face; that's  
world, unexplored; as such, we're ve - ry much yearning to clutch our sister pla -

net, to reach out and get one touch on Ve - nus... Ve - nus...
